EGG • TULIP • BALL

- **Quality Finish with TruMatch™** – TruMatch finishes ensure matching finishes across all product categories from bath accessories and plumbing to vanity lights and cabinet hardware. The TruMatch program uses computerized plating finishes during our manufacturing process to provide the highest quality, appearance, and durability. Plating finishes are designed and tested to withstand over 96 hours of salt spray and are guaranteed to give you years of performance.
- **Corrosion Resistant Surface** – physical vapor deposition, or PVD, is a finish that is applied most commonly to bathroom fixtures and entry hardware due to their frequent exposure to moisture and/or salt air. This finish creates a durable surface that is scratch, corrosion and tarnish resistant. It also aids in preventing finish discoloration or patina.
- Five TruMatch™ finishes coordinate with any style
- Contractor-preferred adjustable latch for large projects
- Custom keying services available for a single door or multiple buildings
- Available in 8 classic and modern profiles
